

## 安装ffmpeg

```
1. sudo yum -y install epel-release
2. sudo rpm -v --import http://li.nux.ro/download/nux/RPM-GPG-KEY-nux.ro
3. sudo rpm -Uvh http://li.nux.ro/download/nux/dextop/el7/x86_64/nux-dextop-release-0-5.el7.nux.noarch.rpm
4. sudo yum -y install ffmpeg ffmpeg-devel
5. ffmpeg -version
```

## 安装Chrome

```
yum -y install chromium
```

## 安装git

```
yum -y install git
```

## 下载代码

```
git clone https://github.com/go-libs-wlk/collyScrapy.git
```

## 配置服务

```
cp app.conf_example app.conf
```

## 安装supervisor

```
yum -y install python-setuptools
easy_install supervisor
supervisord -v
```

```
echo_supervisord_conf >/etc/supervisord.conf
mkdir /etc/supervisord.conf.d

// 修改配置 /etc/supervisord.conf
[include]
files = /etc/supervisord.conf.d/*.conf
```

## 新建管理的应用

```
cd /etc/supervisord.conf.d
vim collyScrapy.conf
// 创建日志目录
mkdir -p /var/log/supervisord/
```

## 配置文件内容

```
[program:collyScrapy]
directory = /data/collyScrapy
command = /data/collyScrapy/main_linux download
autostart = true
startsecs = 5
user = root
redirect_stderr = true
stdout_logfile = /var/log/supervisord/collyScrapy.log
```

## 启动服务

```
supervisord -c /etc/supervisord.conf
```
